

How to measure your bridle

1

1. Browband

Measure the browband's total length from one end to the other.

2

2. Headpiece

From the end of the throatlash one side to the end of the point strap the other side.

Is it difficult to get a bridle to fit your horse? Let us customise one for you - simply follow our 'How to measure your bridle guide'. Then email the measurements to: info@englishbridles.co.uk
We'll do the rest!

3

3. Noseband Head Strap

Measure the headstrap from where it joins the noseband one side over the head to where it joins the noseband the other side.

5

5. Noseband

Measure the noseband, excluding the buckle, from one end to the hole that you do up on.

4

4. Bit to Bit

From where the cheekpieces join the bit one side over the head to where the cheekpieces join the bit the other side.
